DCL Adds Automated High-Speed Packaging Line

ONTARIO, CA. – June 17, 2004 - DCL, www.dclcorp.com , an ISO 9001:2000 certified provider of packaging and distribution services for technology industries, has added a 2nd fully-automated PC software assembly line at their Ontario, California facility. “Being able to accommodate both the volume and the mass merchandising form box is critical to the market,”said Norman Tu, CEO of DCL. “With our two shift operation, we now can produce and ship over 100,000 completed packages per day.”

About DCL:

Founded in 1984, DCL has emerged as a leading provider of next-generation Supply Chain Services. More than a logistics company, DCL is a trusted business partner who reduces operating costs and improves end-customer service via a full menu of business to business solutions including order entry/processing, call centers, webstores, warehousing, final assembly, fulfillment, and returns management. DCL’s advanced IT infrastructure is Internet-enabled for complete integration with enterprise-level business systems. DCL currently serves some of the best-known names in the high-tech and healthcare fields.
